Angel Beats! Heaven's Door

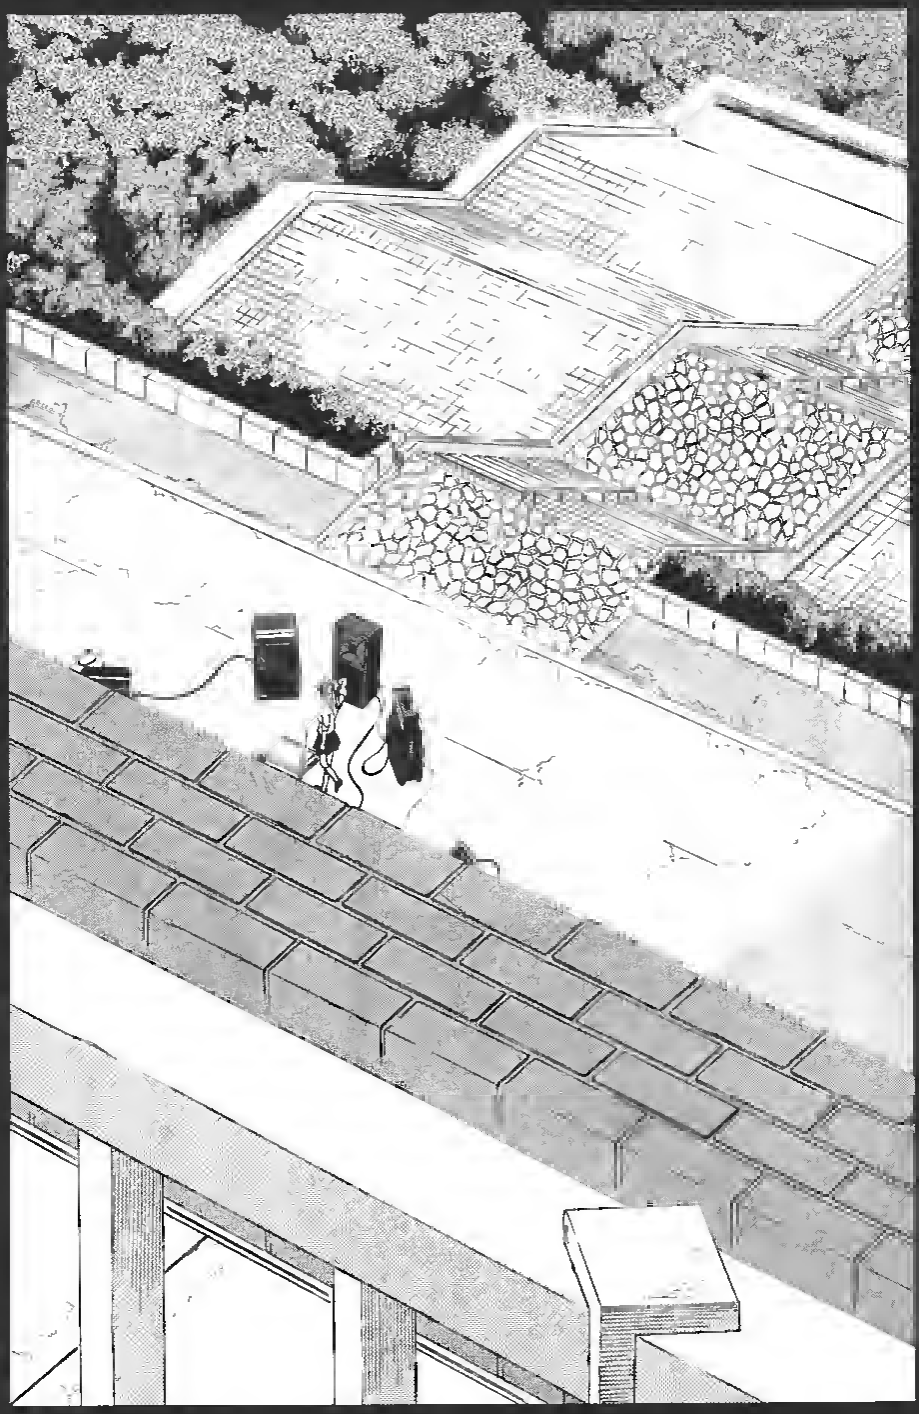
Angel Beats! Heaven's Door

About Iwasawa, she's kinda weird, right?
For a long time
She's smart, but I heard she's not advancing on to high school.
No way! Why?
Who knows? She doesn't talk too much.
She keeps her distance between herself and everyone else
For me, these so-called "friends"
are only an existence that gives me lies and pain
It's really hard to approach her. In other words it's hard to socialize with her.

I don't need things like that
I deal with them always with faked smiles
Is a bit scary for me
Thus, "making friends with someone"
It's fine, you'll understand by tomorrow!

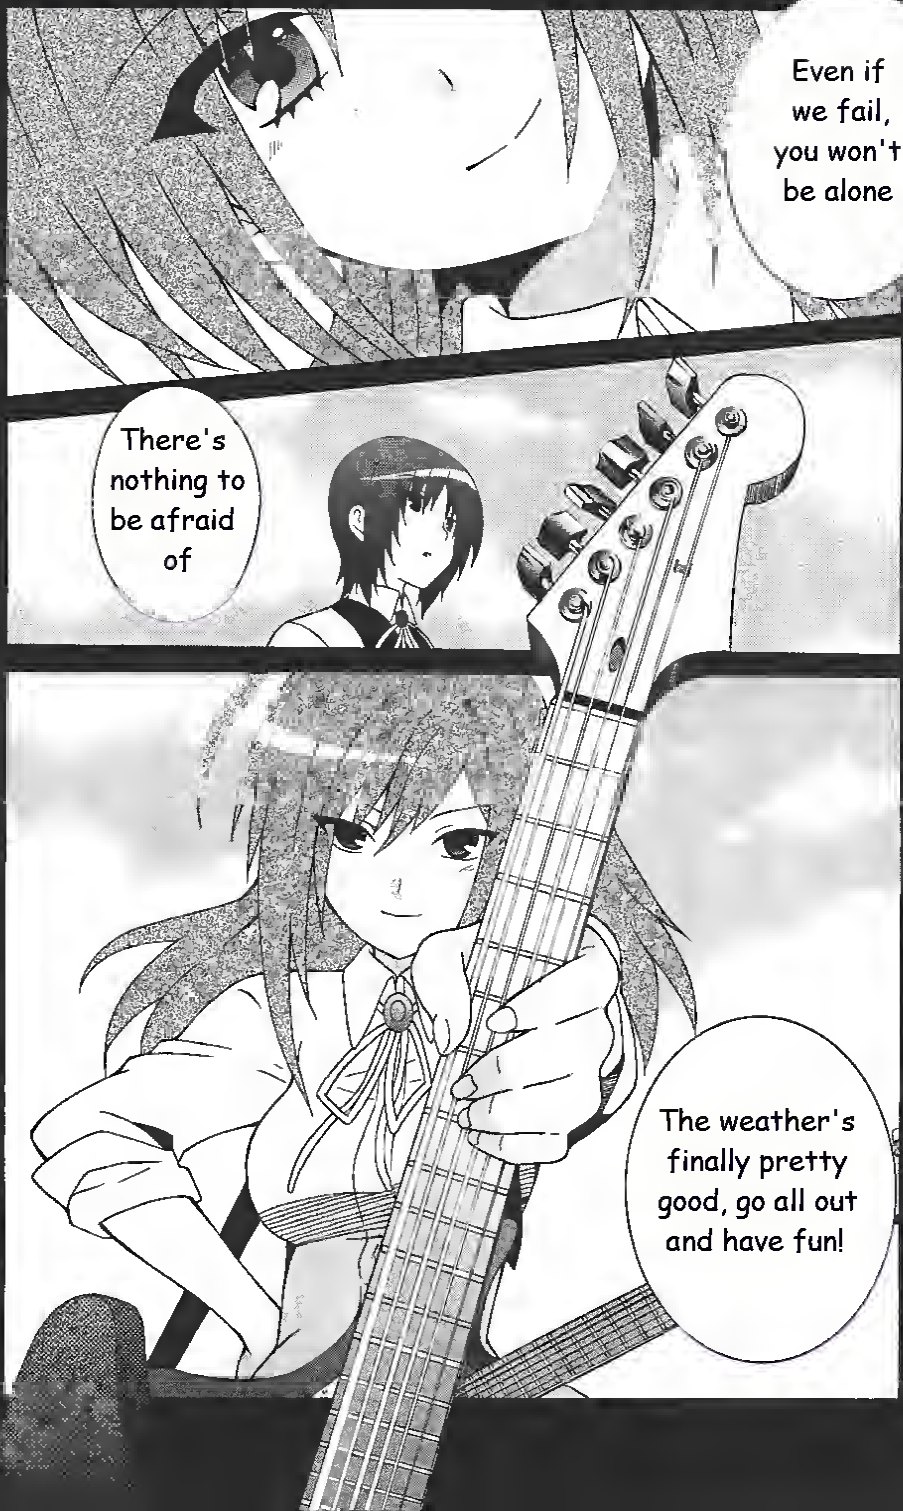
If I could, like them, be equal with others
……

A crow
Ah
I wonder if I'll be able to smile
.....



You're late!
I've already finished tuning the settings and things
It was hard work carrying all this here.
You're really going with this?
Of course?
We're starting immediately

Eh? How about practice? Rehear--- but aren't you tuning up?
Nope
It's because we're going to perform without rehearsing at all
No way! That's impossible! If we don't match up, our pace and such will be totally...
It's okay if you don't teach me about the hard stuff
About that, I'll match up with you
Even if we fail it's okay



Even if we fail, you won't be alone
There's nothing to be afraid of
The weather's finally pretty good, go all out and have fun!

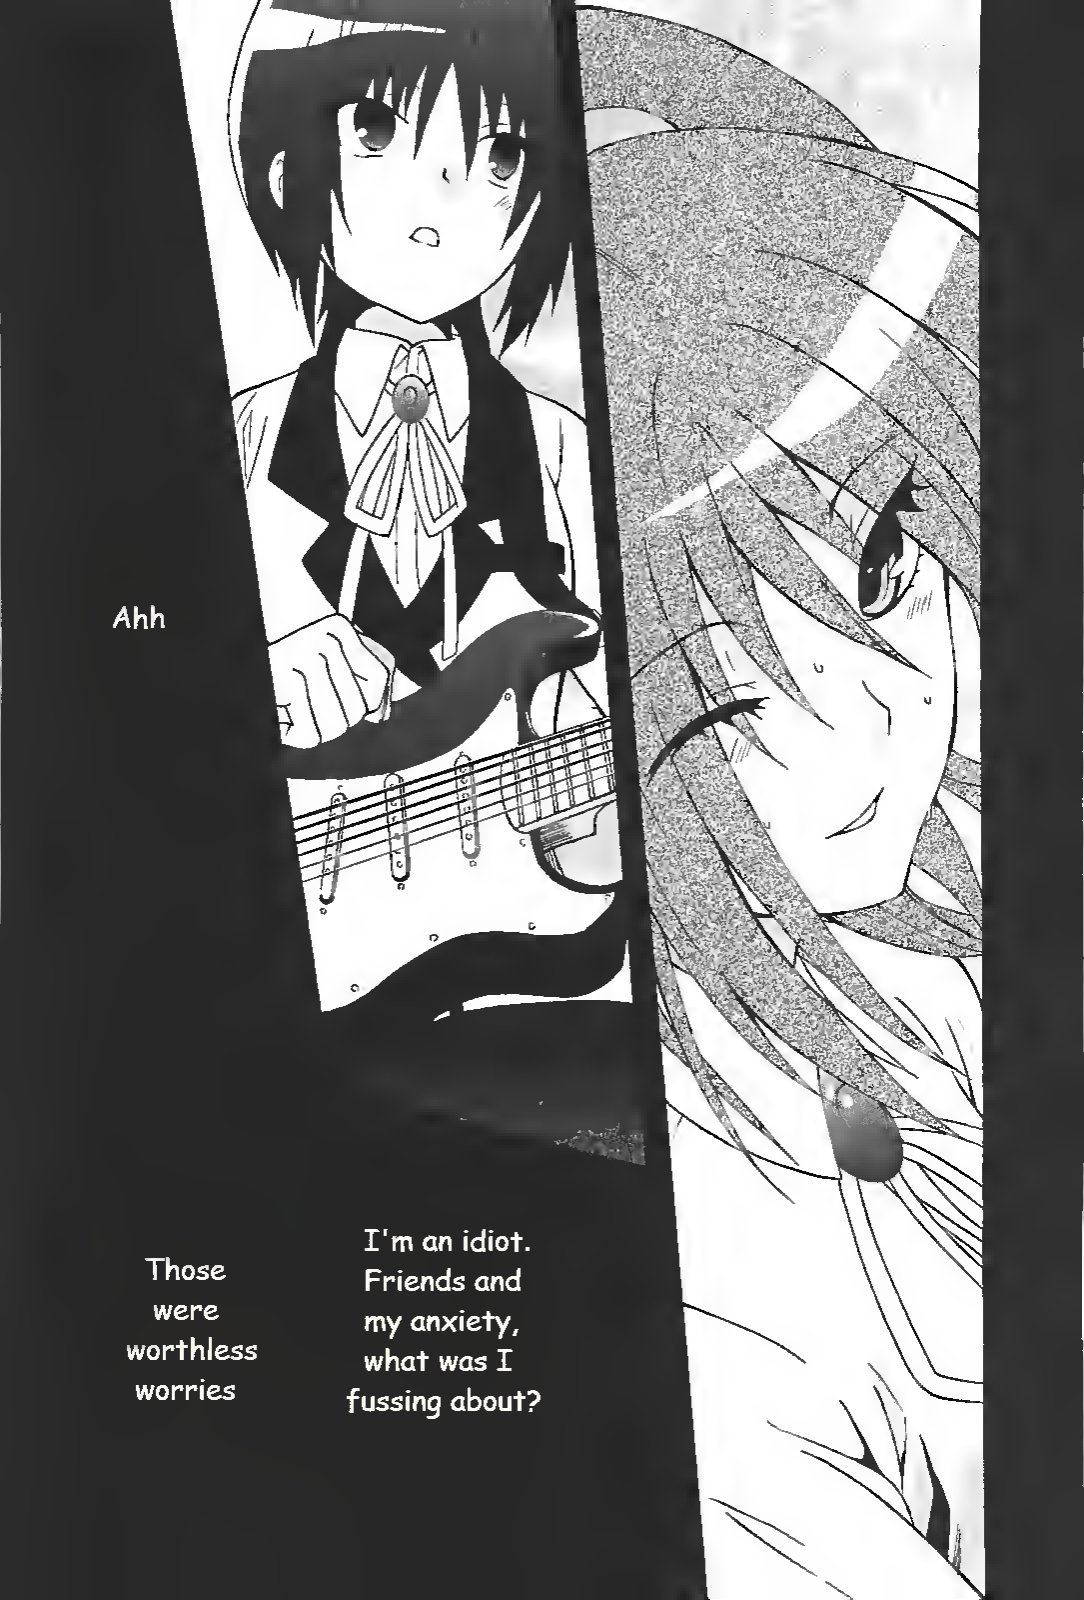
Eh
In short, some time ago, the cas of using this formula ertainly ...
ドン
Wha- what's that noise?

Wha-
What are they-!

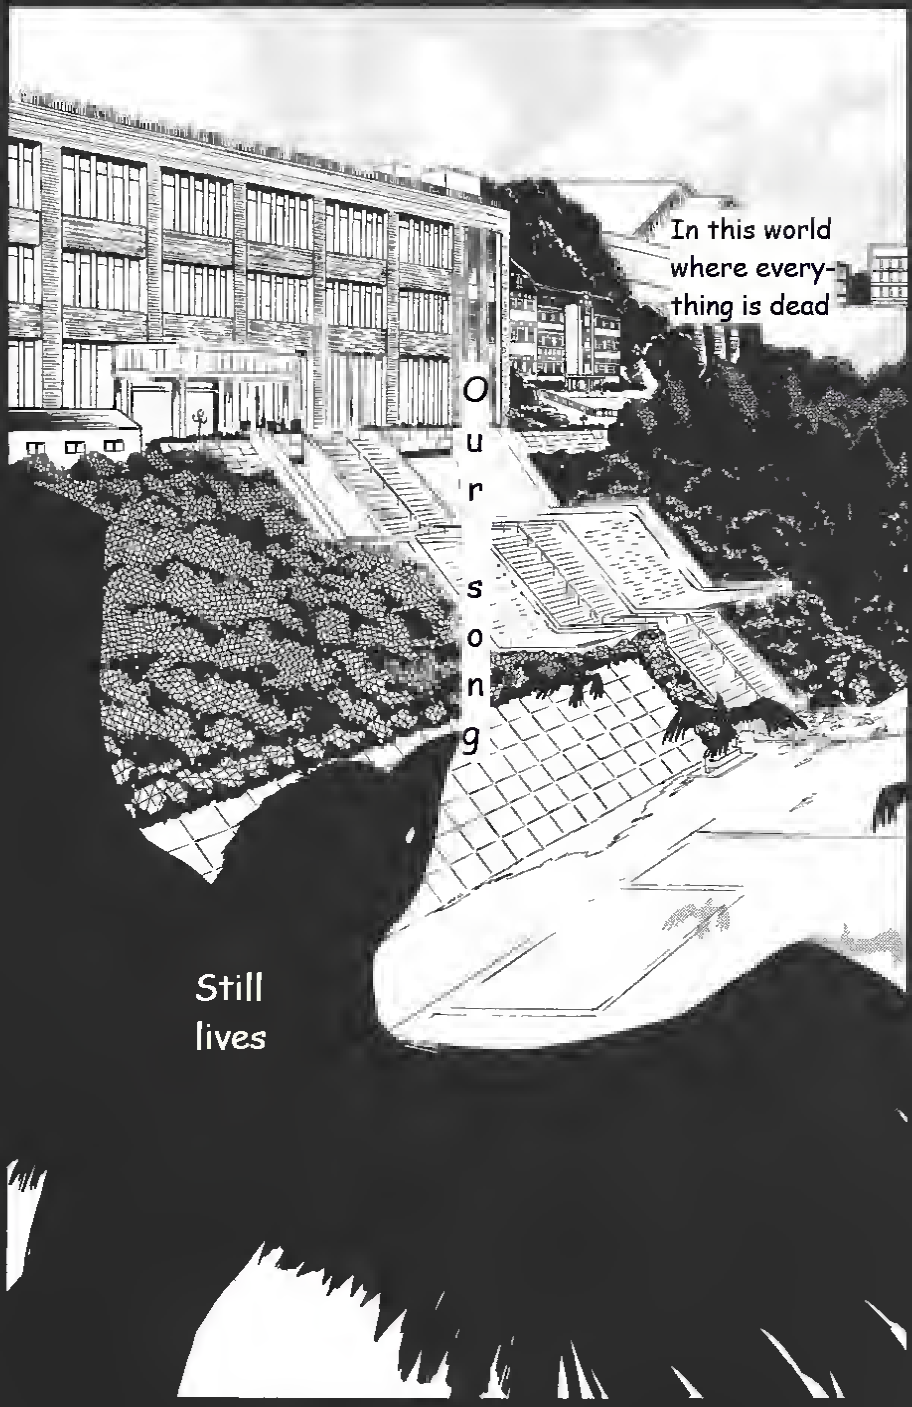
Is this feeling?
What

And my voice had completely turned inside out
Just a while ago I was making all kinds of mistakes
What is this?
But.. what is this?
This is awesome!!

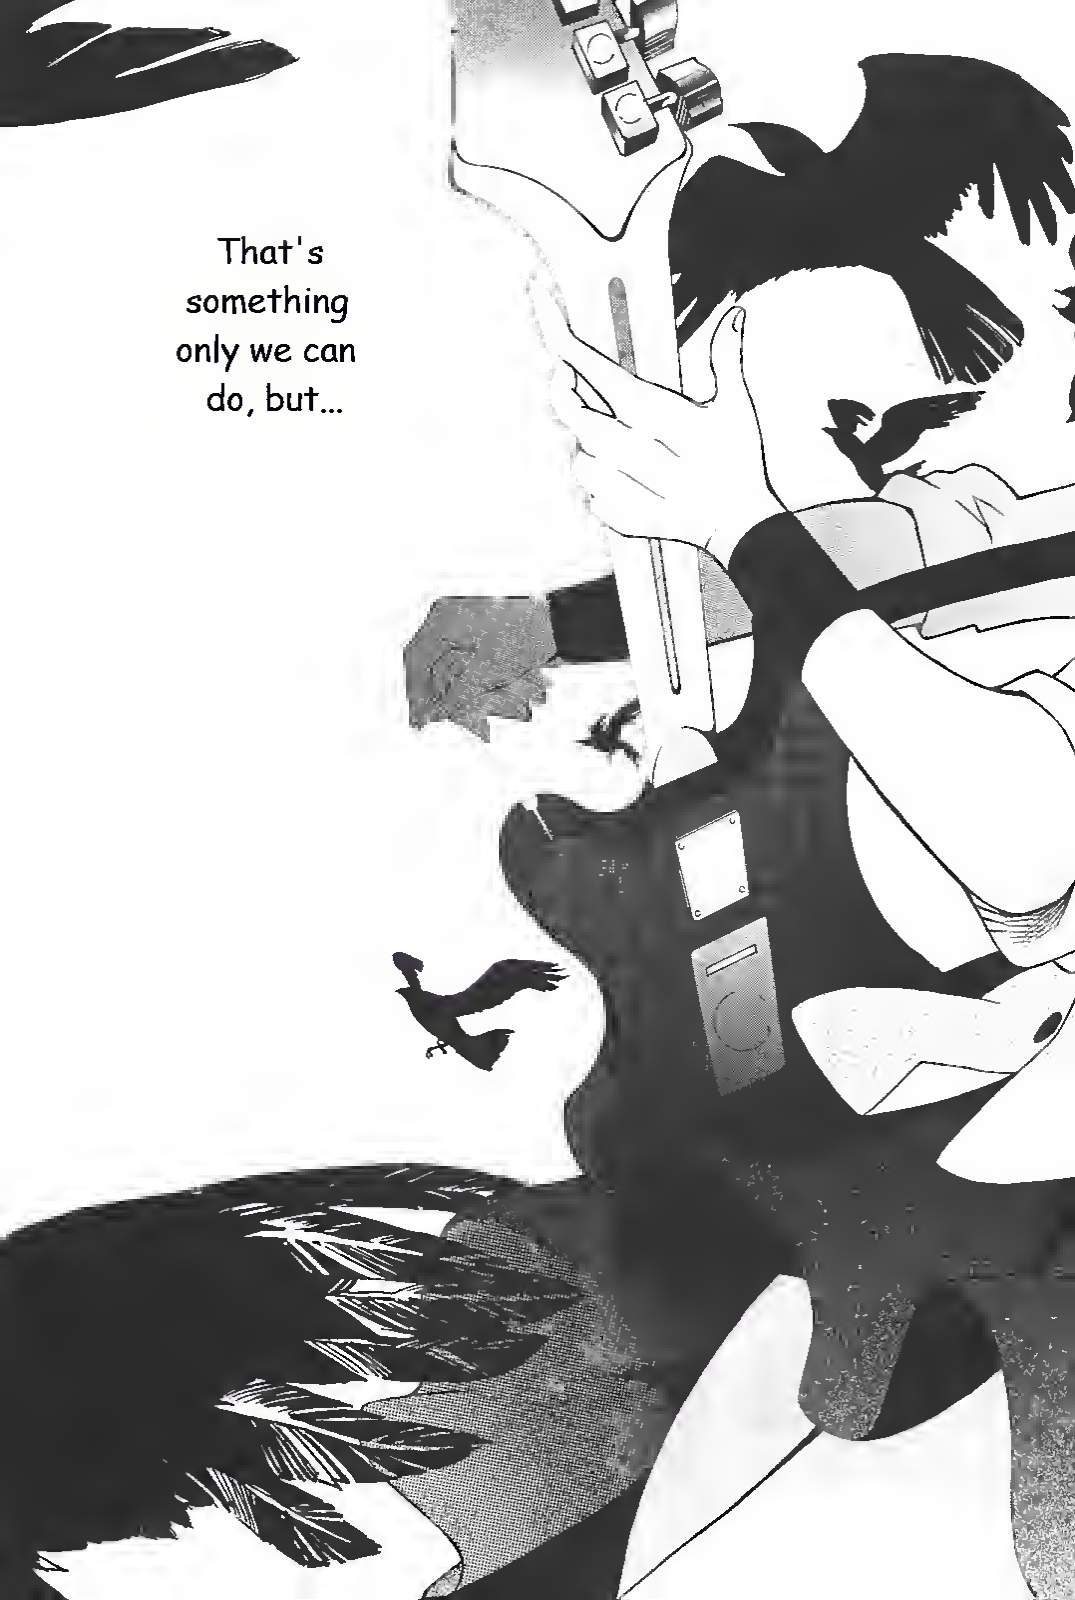
This is
really
awesome!!



Ahh
Those were worthless worries
I'm an idiot. Friends and my anxiety, what was I fussing about?



In this world where everything is dead
Our song
Still lives



That's something only we can do, but...

I finally
Understand

clap

Awe-some!
So cool!
Encore !!

clap
clap
clap
Isn't it awesome?
.....
It's awesome, isn't it? Your song, really, it's...
.....
Still have this kind of reaction
The students in this school, even though it seems like they are manufactured dolls
Hey! You guys!
Hisa ...

Let's get out of here!
Wait-!
...Are they gone?
Yeah, probably

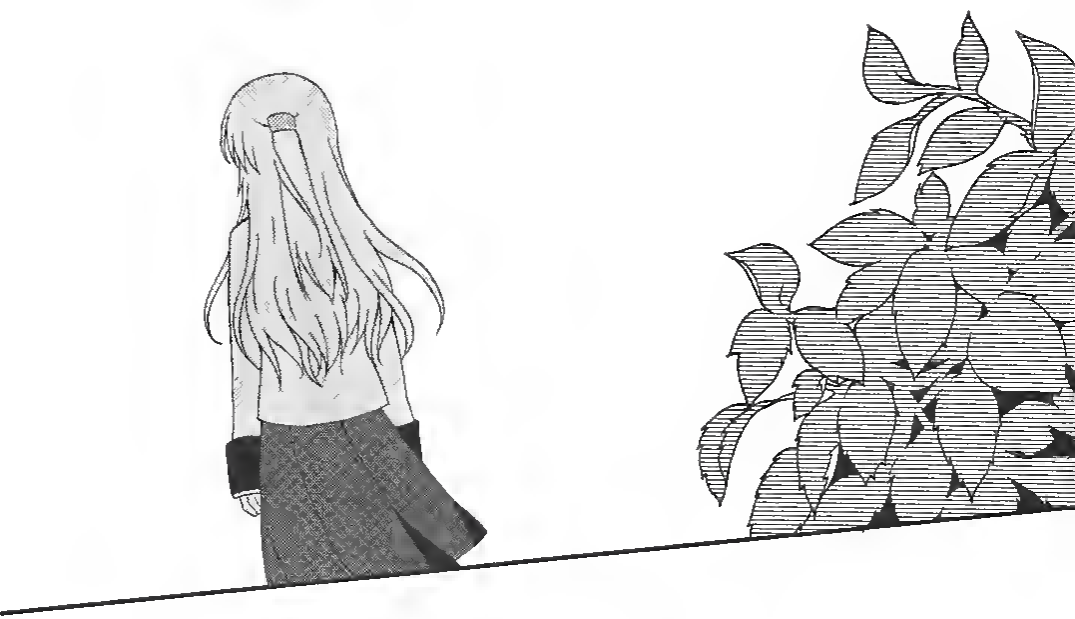
I get the feeling we're constantly running away to escape
.....
I have something to talk to you about, Hisako
... yeah. Even though I rejected practice ...
.....

Out of all the times I've played until now, this was the most fun I've ever had.
It was super awesome!
eh?!
eh?
Iwa-sawa?!

More, I want to sing more with you, Hisako
I need you, Hisako!!
With me, would you together with me?
If you still...
feel like making a band... but...

From now on, I'll be in your care

Yeah!
You
as well!
……



No good
For me, it sounds pretty charming
"Double guitar womans," how's that? No good?
Really? Like what?
By the way, I thought of a name for our band

Both those girls
Eh?
Mainly because the plural form of "woman" is usually
Rejected
And Yurippe and I, throwing ourselves towards the fight against God, is a story that comes a little later
Why, then? at this time, we...
...
ta
...
nata!
